

WORSBROUGH MILL RESERVOIR IMPROVEMENT WORKS

Work commencing June 2023
Due to be complete early 2024

KEEP UPDATED ON THE
PROJECT BY VISITING
WWW.WORSBROUGH-MILL.COM

Balfour Beatty

WHY ARE WE MAKING IMPROVEMENTS?

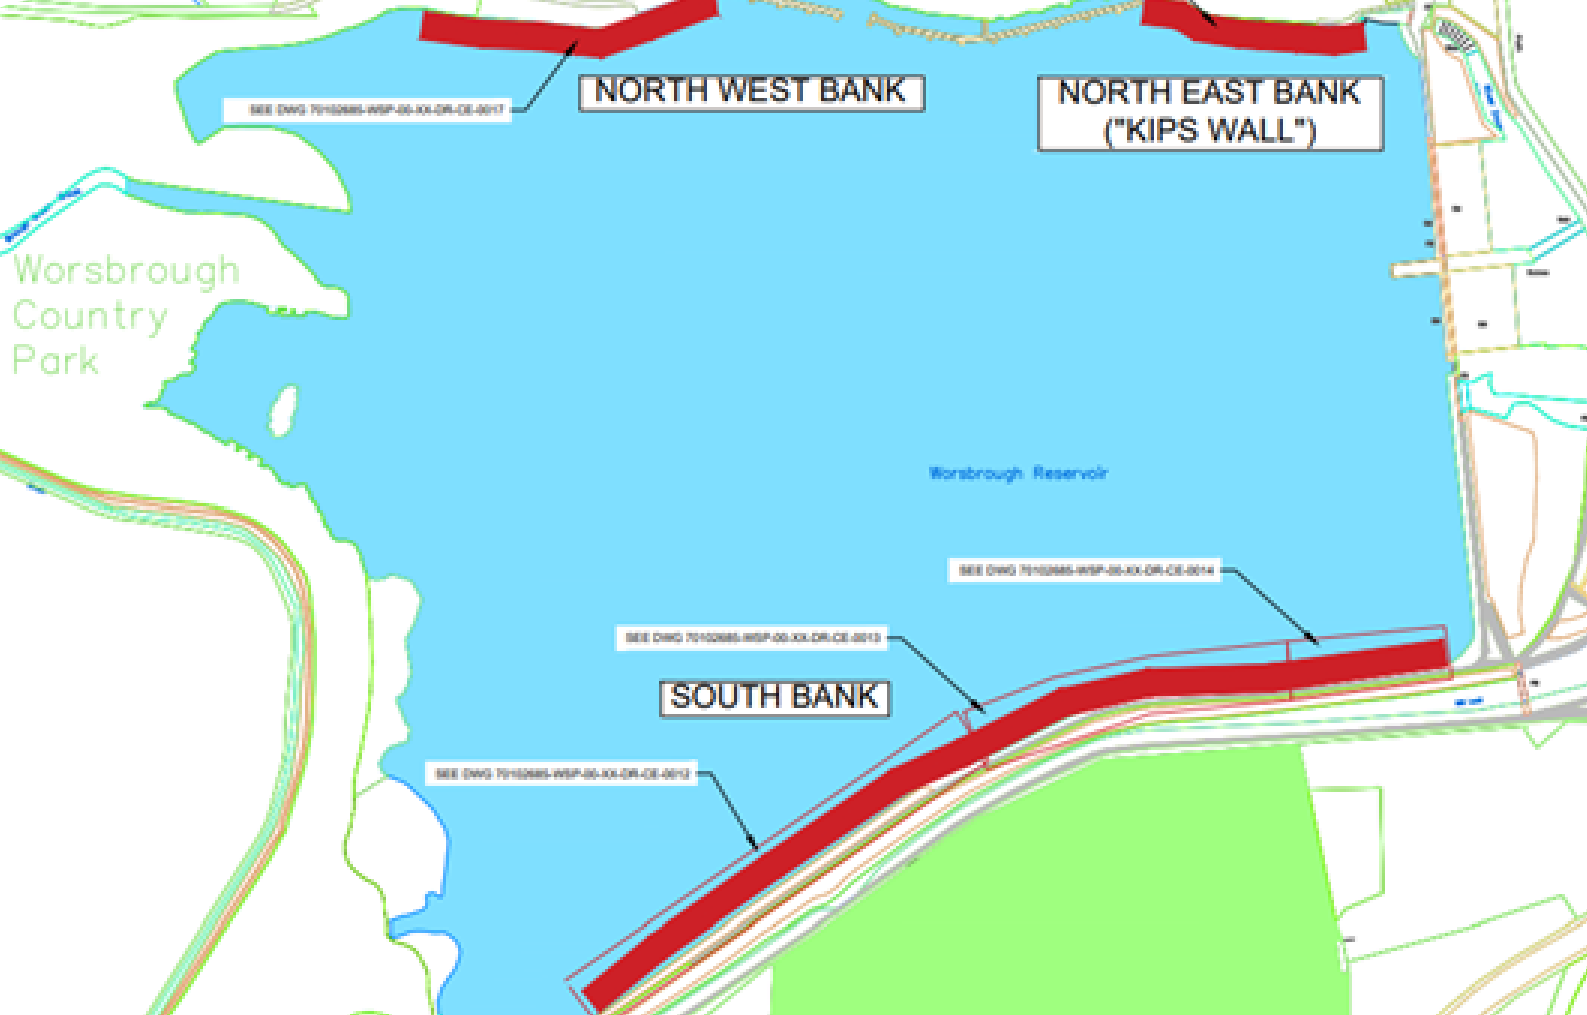

Essential improvements are taking place to our reservoir, it is extremely important that these works take place for health and safety reasons due to the instability of the banking. It will see the repair of both the north and south banks.
The work is also important to support local wildlife and habitats

WHEN WILL THE WORK BE COMPLETED ?

Construction work to the reservoir will be complete in winter 2023 with elements of landscaping to be complete in Spring 2024

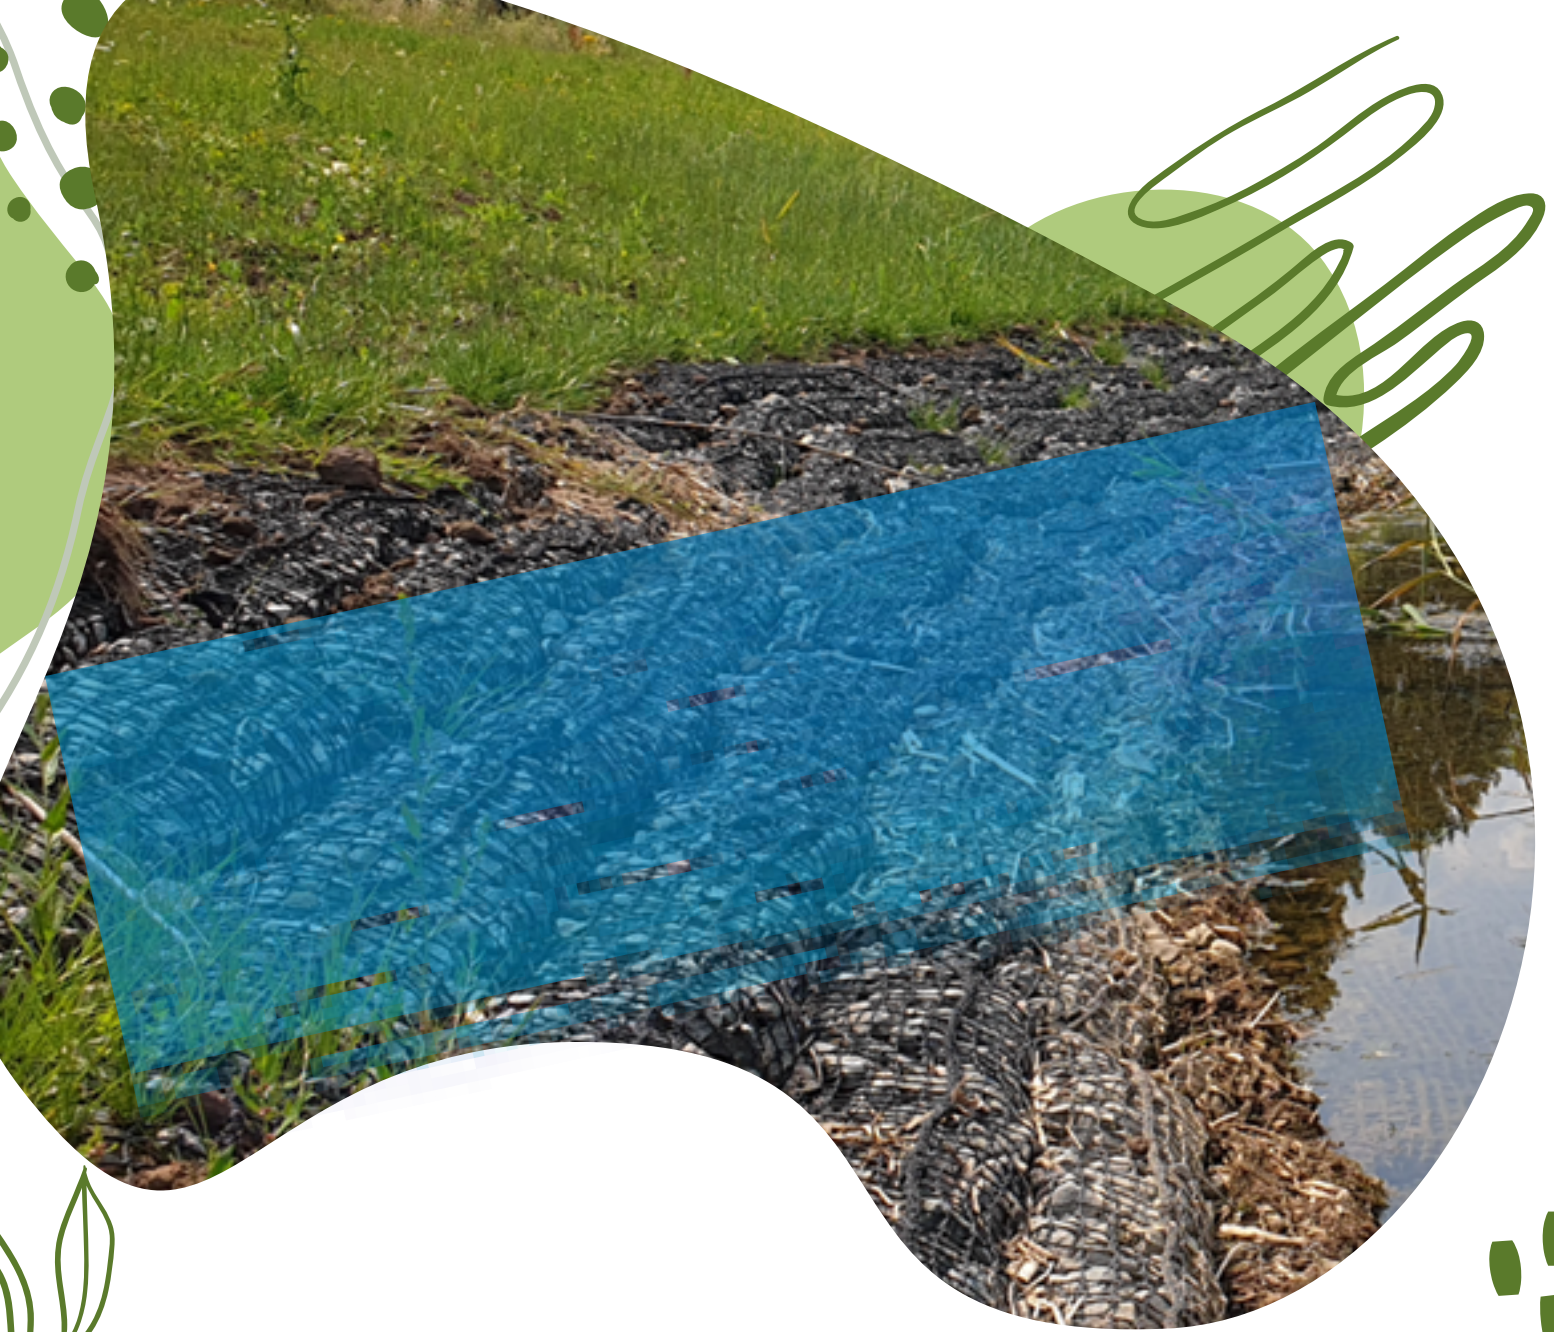

WHAT AREA DOES THIS AFFECT?

Works will affect the entirety of the south fishing platform, the North-west bank including disabled access and the North-east bank (Kips Wall)

WHAT WILL IT LOOK LIKE WHEN THE WORK IS COMPLETE?

When the water is at the normal level the areas will not look too different as the vast majority of the works will be below the water line. All that will be visible is the top level of the banking.

YOUR VISIT

Country Park

The country park, cafe, shop, and Mill are still open. There will be some footpath closures during the works to keep the public and workforce safe but there will be diversions signposted. Please adhere to any closures as these are done for your own protection.

Can i still fish?

Unfortunately the site will be closed to anglers during the work. For alternative local sites please consult the Barnsley and District Amalgamated Angling Society at barnsleyfishing.uk

YOUR VISIT

Can i still feed the ducks?

The footbridge will still be open and accessible to feed the ducks. Did you know – bread isn't actually very good for ducks, it increases waste products in and around the water which can cause disease and algae issues.

Instead they prefer peas, lettuce, sweetcorn, oats, seeds and rice. Find out more here canalrivertrust.org.uk

Can I volunteer?

Once the main construction works are completed we welcome volunteers to assist with the landscaping works. More information on this will be available on the notice boards nearer the time. Also keep an eye on the website for updates on this project and other events and volunteering opportunities.
